PERFORMANCE HORSE
NEW PRODUCT

Masterfeeds

FRONT RUNNER™
EQUINE PROGRAM

ALLTRACK (TEXTURIZED)

FOR ALL TYPES
OF EQUINE
ATHLETES

FEATURES & BENEFITS:

High level of fibre from multiple sources.

High fibre level improves digestive health and provides fibre calories, the most natural form of energy for the horse.

High level of fat from vegetable oil.

Increases endurance energy for peak performance and provides cool form of calories, excellent for weight gain.

Very low level of starch and sugar.

A reduced starch and sugar (NSC) diet provides cool energy, and is beneficial for those with a sensitive digestive tract. It also an excellent choice for those horses prone to tying up.

Very concentrated feed.

Smaller quantities of feed will give desired results making for a more efficient way to feed your horses.

Contains yeast culture.

Works as a digestive aid and gut stabilizer reducing digestive upsets and maximizing digestion.

Contains high level of vitamin E.

A powerful antioxidant to enhance immune response and improve tissue regeneration after strenuous exercise.

Contains chelated trace minerals.

For increased bio-availability of those nutrients essential for immune response, hoof health, bone and cartilage development.

Contains both Pre and Pro Biotic.

For improved digestibility of feedstuffs as well and improved gut health.

PERFORMANCE HORSE
NEW PRODUCT

FRONT RUNNER™
EQUINE PROGRAM

ALLTRACK (TEXTURIZED)

FOR ALL TYPES
OF EQUINE
ATHLETES

Alltrack is a great choice for owners and trainers looking for a very low starch texturized feed for high performance athletes. A blend of high quality fibres, beet pulp and soft pellets fortified with protein, vitamins and minerals and blended with oil and molasses makes a palatable complete and balanced feed. It promotes good digestive and muscle health to keep your horses feeling great and ready for all sports and all tracks.

FEEDING DIRECTIONS:

Feed 0.5 to 1.5 kg per 100 kg bodyweight along with good quality hay. To promote good gut health provide a minimum of 1 kg for every 100 kg bodyweight of hay spread over multiple feedings throughout the day.

This feed contains added Selenium at 0.6 mg/kg.

GUARANTEED ANALYSIS
